

The Defense Medical Readiness Training Institute
in partnership with the Center for Disaster and
Humanitarian Assistance Medicine (CDHAM), is
proud to present the

Medical Stability Operations Course (MSOC)

San Antonio, TX

27 February - 1 March 2013

MSOC is a three-day course designed to familiarize DoD healthcare personnel (O3-O6) with the complexity of military medical diplomacy within the context of U.S. strategy.

ARE YOU PREPARED TO DEVELOP AND CONDUCT MEDICAL STABILITY OPERATIONS TO SUPPORT DoD MISSIONS?

- ❖ Become familiar with the complexity of military medical diplomacy within the context of U.S. strategy and international relations.
- ❖ Gain an appreciation for aspects of planning, providing, and transitioning medical support throughout all phases of conflict and across the range of military operations, including combat and non-combat environments.

TALK TO THE SUBJECT MATTER EXPERTS:

- ❖ The course combines engaging lectures, student activities, and expert panel discussions designed to intellectually challenge students on the application of both hard and soft power in the context of medical stability operations.

GAIN KNOWLEDGE & SKILLS WHICH YOU CAN APPLY NOW!

- ❖ Broad content encompasses the full spectrum of medical stability operations while utilizing concepts and lessons learned from DoD missions around the world.

CONTINUING EDUCATION: AMA PRA/CME Category I (15-20 credits)

DO I QUALIFY?

- ❖ MSOC is open to all DoD Active Duty/Reserve/Guard, US Public Health Service and US Coast Guard Medical Officers, senior enlisted medical professionals, and Interagency & Intergovernmental partners.

Costs? This course is not centrally funded it will be funded through your unit.
